Aluminum and Stainless Steel Gifts and Gadgets

Glassware

Our company offers a variety of promotional products and accessories. All our items are customizable by laser engraving, which is a state of the art computerized process. We can put your company logo and information on products made of leather, glass, wood, stainless steel, brushed and colour coated metals, plastic and acrylics. All the items displayed in this brochure are available for purchase, prices depend on quantities ordered and logo sizing. Got a product idea and don't see it here? Contact us and chances are we can get it for you...our laser process is very flexible and that allows us to customize many different products.

Lamacoids, Cable Tags, and Custom Signage

Web: www.sassypossum.com E-Mail: info@sassypossum.com

In addition to promotional products we also offer engraving services for all your signage needs. Including lamacoids for electrical panels, junction boxes, cable tags, seal tags, valve tags, ID tags. Our stock plastic is rated UV tolerant, outdoor weatherable, 2 ply, and measures 1/16" in thickness. Available colours are pictured below, the small band of colour on the swatch will be the colour of your lettering. Other plastics including glow and metal finish are also available. Our machines can cut out any shape and sizes up to 18"x24". We also have precut metal tags available in various sizes. Contact us for pricing and more information.
